

ROLLMATE®

SPACE SAVING.
TIME SAVING.
BAGGING SOLUTION.

When your goal is customer service, the last place that you want clutter is the checkout line.

A neat, uncluttered check stand makes it easier for employees to focus their attention and efforts on customers. Which is why Hilex Poly's RollMate bagging system is the perfect partner at checkout. While most T-shirt bags require a rack, RollMate bags come on a roll, with space-saving hardware that allow the dispenser to be installed wherever you need it: under the counter or register or at the end of a counter. RollMate keeps bags at your employees' fingertips while eliminating countertop clutter. And, you can mix and match bag sizes and dispensers. With up to 500 bags per roll, employees spend less time restocking and more time serving customers.

The RollMate bagging system adds to checkout convenience with one at-a-time bag dispensing. The employee simply pinches the top of the bag and pulls. The bag detaches from the roll and is ready to fill with merchandise.

Space-saving hardware allows the dispenser to be installed under the counter or wherever you need it.
